

It's love at first sight... Seemingly suspended between scoured sky and polished waters is Changa Safari Camp, a beautiful tribute to all that is perfectly wild and wonderful.

It's not difficult to fall hook, line and sinker for Changa, a family-run, 8-tent camp, which is set like a gem in the tranquil treasures of Matusadona National Park. Take in the staggering views of lake and mountain range or enjoy the simple pleasure of warm sand between your toes... Listen to the iconic cry of the fish eagle as it wheels overhead or marvel at the wonder of a lion ambling across your path.

GENEROUS HELPINGS OF HOSPITALITY

As if the endless allure of skimming across the smooth lake waters by boat or soaking up the sunshine wasn't enough, meals are a definite attraction at Changa. Tuck into simple, tasty breakfasts, light lunches and three-course fireside dinners, the stars above putting on their spectacular show. An assembly of warm, friendly staffers are here to see to your every whim, providing the kind of gracious service that helps you understand why Zimbabweans rate high on the African hospitality scale.

Among the indulgences at this lakeside retreat, a sense of having all the time in the world is one of its most luxurious.

NOTHING SHORT OF ASTONISHING

When not wallowing in the swimming pool while hippos eye you out from the lakeshore, you might go walking with your guide in the national park or bob about quietly in a boat, sun-drunk crocodiles nearby, fish rising and rod poised. Lose yourself in a book on your private veranda or soak up the Eden-like sight of elephants feeding, baboons swaggering and impala scattering on your game drive. Changa's smaller attractions never fail to charm, too... The African jacanas that appear to walk on water, dung beetles just rolling, rolling, rolling and glistening dragonflies that never stop hovering and darting.

For the many who've experienced the quiet intimacy of this beautiful camp, they each share the sense of being privy to one of the most unspoilt and spectacular landscapes in Africa.

CREATURE COMFORTS

High style meets practical simplicity in your spacious tent with en-suite outdoor bath and shower. Unique African touches in wood, leather and basketry combine effortlessly to create a sophisticated home grown style. Mosquito-proof gauze tent openings and cooling fans are in place for your protection and comfort. A choice of tea or coffee is delivered in the morning with a friendly "Knock-knock!" and meals are often served al fresco.
